About Me

I'm a senior programmer with 6 years of experience in game development, specializing in user-facing interactive systems. I love collaborating in varied teams, to create something greater than the sum of its parts. Challenging work is what keeps me motivated, whether it's creating clean code architectures, solving complex 3D math problems or tweaking a feature to get the feel just right.

Work Experience

Senior Game Programmer

jan 2024 - present

Vertigo Games, Amsterdam 

Metro Awakening 

Unreal Engine 5, C++

4 Unannounced Projects

Unreal Engine 5, C++ - Meta Horizon Studio, TypeScript

Game Programmer

sep 2022 - dec 2023

Vertigo Games, Amsterdam 

Metro Awakening 

Unreal Engine 5, C++

Game Programmer

sep 2020 - aug 2022

KeokeN Interactive, Hoofddorp 

Deliver Us Mars 

Unreal Engine 4, C++

Education

BSc Computer Science and Engineering

sep 2017 - jul 2020

Delft University of Technology 

University Education - Bachelor

Graduated cum laude

Minor Game Studies and Cultural Analysis

sep 2019 - jun 2020

Leiden University 

University Education - Minor

Skills
